Time Management

Achievements

Construct Week Project 🔗
Masai, Bengaluru

Muthyam Sushmitha

Full Stack Web Developer

Professional Summary

Adaptable Full Stack Web Developer proficient in JavaScript, MERN stack, and RESTful API design. Valued for exceptional problem-solving and collaboration skills. Skilled in integrating generative AI and rapidly learning new technologies to enhance software development and drive innovative web solutions.

Experience

GlobalLogic | Associate Analyst   August 2023 - March 2024

- Trained AI models by providing high-quality annotations for improved performance.
- Collaborated with cross-functional teams to refine game mechanics and user experience.

Projects

Property Listing Platform   Live Demo Link   Github Repo Link

HTML5 CSS3 Responsive Web Design React
Git Node.js Express.js MongoDB

- Developed a real estate web application with dynamic search, filters, and real-time property updates for an enhanced user experience.
- Implemented features like pagination, infinite scrolling, a "Favorites" section, an image carousel and an inquiry form with email confirmations.

Jpp Compiler   Live Demo Link   Github Repo Link

HTML5 CSS3 JavaScript
Responsive Web Design Python

- Developed MatLang, a beginner-friendly programming language that blends Hindi and English, making coding accessible to non-technical users.
- Enabled JavaScript compilation with support for variables, loops, functions and objects, ensuring seamless web integration.
